

ATEC America

LTA-100 COMPACT CASH RECYCLER

The LTA-100 focuses on saving space in compact offices, smart cash recycling and top of the line security.

SPACE SAVING

Compact design maximizes value while supporting 6 denominations with three split cassettes

GREAT PLACE TO START

Perfect entry-level model for smaller businesses or financial institutions

LTA-100 COMPACT CASH RECYCLER

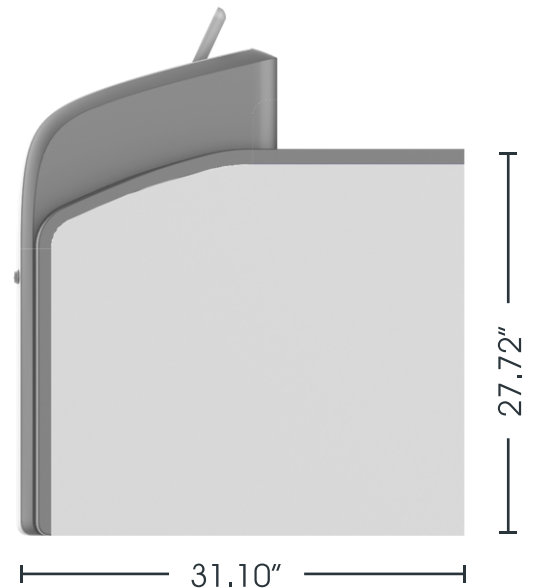

The LTA-100's sleek design is engineered to optimize space efficiency without compromising functionality. Capable of supporting six denominations by offering three split cassette options, it provides versatility for various customer requirements. Retail or Financial institutions can benefit from its full or split cassette configurations, tailoring the machine to their specific needs. Security is paramount, with features like a seismic door, silent alarms, and a UL291 certified safe enclosure. Intelligent cassettes add another layer of protection, secured by keys and tamper switches, ensuring a secure, dependable, and advanced solution for financial management.
